

View DVR with IE8

1. General Description

This document is for how to view our DVR through web interface with IE8. When you meet problems with IE8, please refer to this manual.

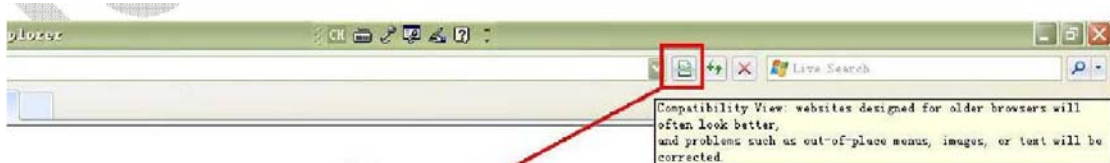

2. Run Web interface with IE8

For IE8, sometime it will not run with the right mode, there 2 ways to solve the problem

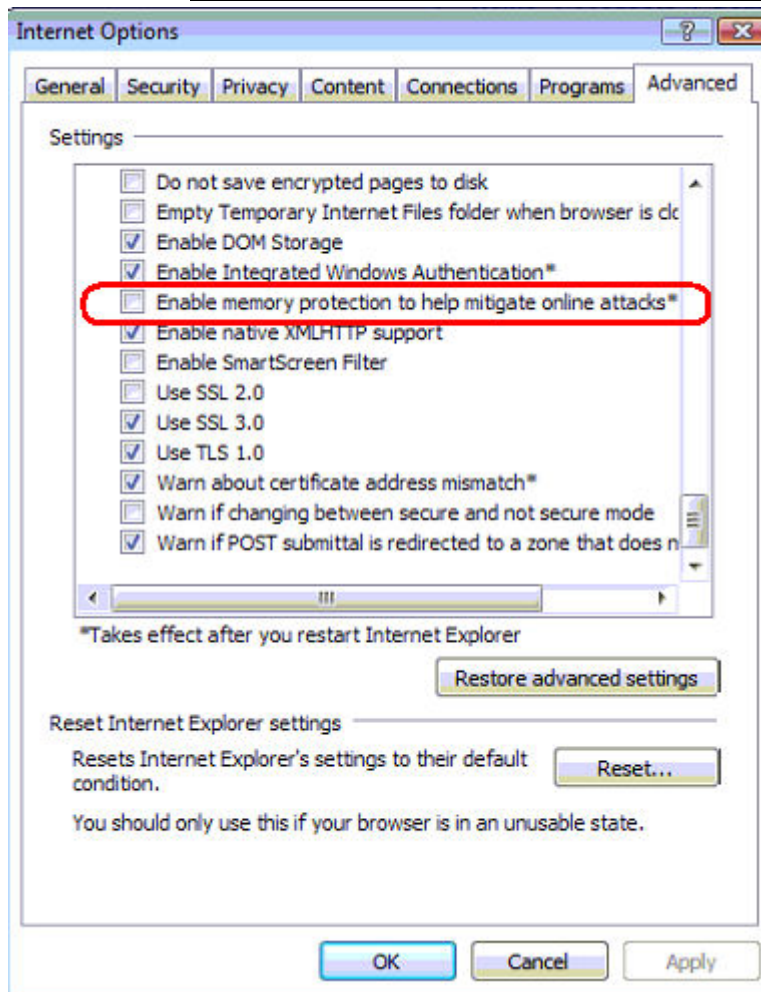

1、 Use the **Compatibility View** function of IE8

With this way, every time you open the IE interface, must click this button

For IE8 if the interface is abnormal, please click the button

B、 Please disable **Enable memory protection to help mitigate online attacks**

4. Further Information

If you still have any problems about these functions, please contact with our engineer
